DETAILED ACTION

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record, Petite (US Patent 7,103,511) and Zintel (US Patent 7,130,895 B2) teach analogous art to the instant application, that configuration communication between a plurality of devices. Petite more specifically teaches remote monitoring of a plurality of devices through a central site controller with the ability to communicate configuration data to the devices. Zintel more specifically teaches a method of automated discovery and configuration between a plurality of devices through a subscription model. However, after careful consideration of the Brief (pages 8-10) filed 8/28/2008, the applicant extensively and specifically pointed out how the claim amendments overcome the prior art of record, particularly Zintel's method of updating of device configuration dependent upon a controlled device continually sending notifications and update requests to a subscriber if the information is not up to date, which is different the incrementable CONFIG ID of the instant application that detects a mismatch and only sends configuration data if a mismatch is detected, keeping the information up to date. Thus, in the instant application, sharing configuration information between devices is done by detecting and automatically updating invalid or stale configuration information, based on the CONFIG ID related to the configuration information.

This feature is indicated in independent claims 1, 15, and 23, wherein plurality of devices contains an active incrementable CONFIG ID corresponding to the active configuration data, which is utilized to compare the CONFIG ID values between devices, and to automatically send active configuration information protocol data if a mismatch between CONFIG IDs is detected.

Consequently, independent claims 1, 15, and 23 and dependent claims 2-14, 17-22, and 24-25 as amended are allowable over prior art.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
